The Museum's mission is "to preserve the Packard legacy, to recognize Packard's influence in transportation and industrial history, and to educate current and future generations." A critical component of that mission is to preserve and care for our permanent collection of vehicles along with the collection of significant Packard automobiles entrusted to us by the Detroit Historical Society.

With the rising costs of insurance premiums, maintenance and fuel for vehicles driven or hauled to other venues, it is important that the museum expand its partnership with members, supporters, and business associates to address the costs of caring for the valuable collection.

to "Adopt a Packard". We have an eclectic collection of vehicles available for adoption, ranging from a 1903 Packard Model F built in Warren, Ohio, to Mrs. J.W. Packard's 1941 LeBaron custom body Limousine, two 1951 Pan American Show Cars, a 1953 Clipper Stock Car, a 1953 Clipper Navy Ambulance, and an extremely rare 1925 Sterling Knight automobile manufactured in Warren.

participating by adopting a car for \$1,000.00 a year or \$83.34 a month. "Adopt a Packard" sponsors will be recognized in a press release in the Tribune Chronicle and Vindicator, on the museum's own website, and on signage beside the adopted car. Each donation will be kept in a restricted fund established to sustain the financial requirements of insurance, fuel, maintenance, and transportation costs related to the display of our vehicle collection.

Thank you for carefully considering this request. If you are interested, please contact the museum for a full description of each vehicle awaiting adoption. Your support of the Museum Collection is greatly appreciated. ●●
